

Structural Solutions Private Limited

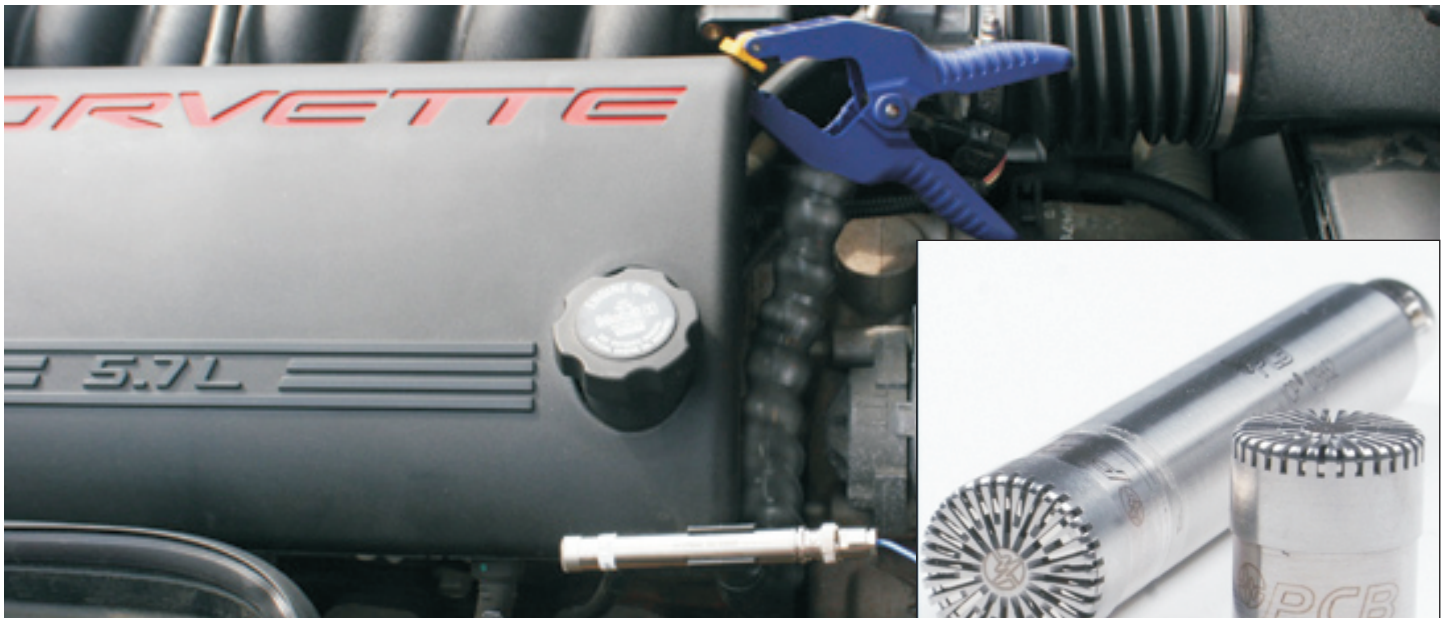

High Temperature Acoustic Measurement Model HT378B02

September 2013

PCB Piezotronics Inc., USA is uniquely positioned in sensor industry to satisfy a wide range of research, test, measurement and monitoring.

Structural Solutions Private Limited, the exclusive representative of PCB group in India is a professional engineering company engaged in offering high-end technology intensive products and system solutions to Indian industry for acoustic measurements.

Engineered Faster than the Speed of Sound!

Highlights:

1. Operating temperature to +120 °C (+250 °F)
2. Operates from ICP® sensor power
3. Low noise floor
4. Wide frequency range
5. System sensitivity guaranteed within +/- 1.7 dB
6. Temperature range eliminates the need for high-priced probe microphones
7. ½" package with BNC connectors

Applications:

1. Engine analysis
2. Manifold testing
3. Transfer path analysis
4. General acoustic testing in high temperature applications
5. Exhaust pipes

HT378B02
